Border pixel snapping

View at 100% zoom. Every box sits at a fractional position (the 15mm page margin is 56.69px itself), so a 1px border either covers one device column (snapped) or two half-covered ones (exact).

1px borders at different fractional offsets

margin 0.25px | margin 10.5px | margin 10.75px | margin 10px

Cards in a row (the original report)

Transfer date | Amount | Reference

Horizontal rules (border-top: 1px)

Border on a background

The background is snapped with the border, so no background shows outside it.

margin 0.25px | margin 10.5px | margin 10.75px | margin 10px

Border with an outline

The outline follows the snapped border.

margin 0.25px | margin 10.5px | margin 10.75px | margin 10px

Other border styles, 2px

solid | dashed | dotted | double
