

FULL BLEED

`@page :first { margin: 0 }` — the content band is the whole sheet

Corner marks touch all four paper edges

Back to ordinary margins

The cover's forced break lands this page on the base 20mm margins, with the running footer restored. Per-page top and bottom margins are layout-affecting: each page's own @page margins define its content band, so an edge-to-edge cover and a conventionally margined document coexist in one PDF.
