

Horizontal rule attributes and margins

Each rule sits in a grey band. A rule has 0.5em above and below by default, and centres when it is narrower than the band; `align` moves it by changing those margins, and an `author` margin overrides both.

default	
width="50%"	
width="50%" align="left"	
width="50%" align="center"	
width="50%" align="right"	
align="right" + margin: 0	
hr { margin: 0 } between text	<div>above</div> <div>below</div> 
hr default between text	<div>above</div> <div>below</div> 
size="1"	
size="3"	
size="10"	
size="10" noshade	
size="10" color="red"	
size="10" color="#2a7" width="50%" align="right"
