

CSS Overflow 4 line-clamp

1 — the same paragraph clamped at increasing line counts

line-clamp: 1

The quick brown fox jumps over the lazy dog....

line-clamp: 2

The quick brown fox jumps over the lazy dog.
This sentence keeps going long enough to...

line-clamp: 4

The quick brown fox jumps over the lazy dog.
This sentence keeps going long enough to wrap
across quite a few lines once the container is
narrow, which is exactly what this showcase...

none (unclamped, for comparison)

The quick brown fox jumps over the lazy dog.
This sentence keeps going long enough to wrap
across quite a few lines once the container is
narrow, which is exactly what this showcase
needs in order to demonstrate line-clamp
actually cutting it short partway through.

2 — content that already fits within the limit gets no ellipsis

line-clamp: 5 on a two-line paragraph

Short paragraph that only wraps onto two lines in
this narrow card.
