

CSS list-style-image Test Page

1 — URL image (graceful fallback when missing)

A missing URL should produce no marker and no crash. The list items are still indented normally.

 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three	 1. Item one 2. Item two 3. Item three
missing URL list-style-image: url('nonexistent.png');	none (baseline) list-style-image: none;	disc (no image) list-style-type: disc;	decimal (no image) list-style-type: decimal;

2 — linear-gradient markers

Each list item marker is a gradient-filled square, sized to the current font height.

 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three
to right red → blue list-style-image: linear-gradient(to right, red, blue);	to bottom green → yellow list-style-image: linear-gradient(to bottom, green, yellow);	45deg multi-stop list-style-image: linear-gradient(45deg, red, yellow, blue);	hard-stop stripes list-style-image: linear-gradient(to right, red 50%, blue 50%);

3 — radial-gradient markers

 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three
circle center list-style-image: radial-gradient(circle, white, navy);	ellipse default list-style-image: radial-gradient(red, blue);	at 30% 30% list-style-image: radial-gradient(circle at 30% 30%, yellow, orange, red);	closest-side list-style-image: radial-gradient(closest-side circle at 50% 50%, lime, teal);

4 — conic-gradient markers

 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three
default sweep list-style-image: conic-gradient(red, blue);	pie chart list-style-image: conic-gradient(#e74c3c 0 25%, #3498db 25% 65%, #2ecc71 65% 100%);	from 90deg list-style-image: conic-gradient(from 90deg, red, yellow, blue);	color wheel list-style-image: conic-gradient(red, yellow, lime, cyan, blue, magenta, red);

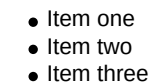

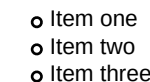

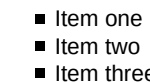

5 — list-style shorthand with gradient

A single list-style shorthand value setting both position and image.

 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three
inside linear list-style: inside linear-gradient(to right, purple, orange);	inside radial list-style: inside radial-gradient(circle, gold, crimson);	inside conic list-style: inside conic-gradient(red 0 33%, blue 33% 66%, green 66% 100%);	outside linear list-style: outside linear-gradient(45deg, teal, pink);

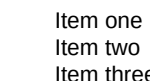

6 — Gradient marker alongside typed bullets

Left column uses a gradient list-style-image; right uses list-style-type only. Neither should interfere.

 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three
gradient image list-style-image: linear-gradient(to right, red, blue);	disc (no image) list-style-type: disc; list-style-image: none;	circle (no image) list-style-type: circle; list-style-image: none;	square (no image) list-style-type: square; list-style-image: none;

7 — SVG list-style-image

A url() list-style-image source can now be an SVG - rendered as real vector content, not rasterized, same as the SVG background-image support above.

 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three	 Item one Item two Item three
SVG url() image list-style-image: url('data:image/svg+xml;base64,PHN2YyB4bWwuc20iaHR0cDovL3d3dy53My5vcmcvMjAwMC9zdmcilHZpZXdCb3g9IjAgMCAxMCAxMCI+PHJlY3Qgd2lkdGg9IjEwIiBoZWlnaHQ9IjEwIiBmaWxsPSJlYzAzOTJlIi8+PGRnPCpNc3ZSBjeD0iNSIyY3k9IjUuIi9lQilGZpbGw9IiNmMWM0MGYiLz48L3N2Zz4=');	shorthand: inside + SVG list-style: inside url('data:image/svg+xml;base64,PHN2YyB4bWwuc20iaHR0cDovL3d3dy53My5vcmcvMjAwMC9zdmcilHZpZXdCb3g9IjAgMCAxMCAxMCI+PHJlY3Qgd2lkdGg9IjEwIiBoZWlnaHQ9IjEwIiBmaWxsPSJlYzAzOTJlIi8+PGRnPCpNc3ZSBjeD0iNSIyY3k9IjUuIi9lQilGZpbGw9IiNmMWM0MGYiLz48L3N2Zz4=');	shorthand: outside + SVG list-style: outside url('data:image/svg+xml;base64,PHN2YyB4bWwuc20iaHR0cDovL3d3dy53My5vcmcvMjAwMC9zdmcilHZpZXdCb3g9IjAgMCAxMCAxMCI+PHJlY3Qgd2lkdGg9IjEwIiBoZWlnaHQ9IjEwIiBmaWxsPSJlYzAzOTJlIi8+PGRnPCpNc3ZSBjeD0iNSIyY3k9IjUuIi9lQilGZpbGw9IiNmMWM0MGYiLz48L3N2Zz4=');	missing SVG file (graceful fallback) list-style-image: url('nonexistent.svg');
