

Text decoration: skipping ink and atomic inlines

text-decoration- skip-ink (CSS Text Decoration 4 §2.5)

auto (initial) — the underline breaks around every descender

Typography judging a quick pig by page eighty-jog

none — opt out: one unbroken line straight through the descenders

Typography judging a quick pig by page eighty-jog

auto, thicker line — a taller line meets more ink, so it interrupts more often

Typography judging a quick pig by page eighty-jog

line-through is never skipped (§2.5), even at skip-ink: all

Typography judging a quick pig

Atomic inlines are not decorated (CSS Text Decoration 3 §2.4)

an inline-block on the line — the line stops at its margin box and resumes after it

before  after

the same inline-block made invisible — the gap is real, not the chip covering the line

before after

an image, on a block whose decoration propagates to its inline content

a picture  follows the gap

both rules at once — a gap for the inline-block, and one per descender
