

CSS text-overflow: ellipsis Test Page

1 — horizontal LTR: truncate at decreasing widths

The quick brown fox jumps over the lazy...

The quick brown fox jum...

The quick br...

Short text needs no truncation at all

2 — horizontal RTL: truncate stays flush-right, ellipsis on the physical left

זהו משפט ארוך בעברית שאמור להיחתך בק...

3 — a wrapping paragraph whose one unbreakable line overflows

This paragraph wraps normally, but one line below has a single run with no spaces:

ThisIsOneVeryLongUnbreakableT...
and this last line is short again.

4 — vertical-rl/vertical-lr columns: truncation along the inline (top-to-bottom) axis

縦
書
...

vertical-rl

縦
